Dear Mr. McNish:

Thank you so much for your contribution of \$2,150.00 to Susan G. Komen for the Cure in memory of Debra Rose Nichols. Your support is vital in helping us achieve our vision of a world without breast cancer.

Since Susan G. Komen for the Cure began in 1982, we have made enormous progress in the battle against breast cancer. Generous support from friends like you helped us invest more than \$1 billion to date in our promise to save lives and end breast cancer forever. Komen's Award and Research Program has been instrumental in funding revolutionary breast cancer research, leading to groundbreaking discoveries that improve the treatment of breast cancer and may reduce the incidence of breast cancer in high-risk groups.

Our signature event, the Komen Race for the Cure Series, promotes breast cancer awareness and early detection. In addition to research, proceeds from these events are used to support community-based breast health education, breast cancer screening and treatment for those without access to medical care. Programs like these contribute in helping increase early detection rates of breast cancer among American women.

Again, I want to express my sincere appreciation for your generous donation and your belief in our promise to save lives and end breast cancer forever. The success of Susan G. Komen for the Cure is only made possible through the considerate support received from corporations, organizations, and individuals like you. Because of your help, we are one step closer to finding a cure.

Sincerely,
